Schooling in the AI Era - Leading Transformation & Driving Development

HKBUAS 20A Symposium

On March 21, 2026, our school hosted the 20th Anniversary symposium "Schooling in the AI Era - Leading Transformation & Driving Development", bringing together **over 500 educators, scholars and tech experts from Hong Kong, the mainland and overseas** to cultivate meaningful perspectives to advance learning and teaching in the age of artificial intelligence (AI).

The school buzzed with energy as participants shared bold ideas and practical insights on how artificial intelligence is reshaping learning and teaching. From thought-provoking **keynotes** to lively **panel discussions and sharings by teachers and representatives from the industries**, the event cultivated fresh perspectives on how schools can not only adapt to AI but lead the change - with students' holistic development always at the heart of the conversation.

研討會贊助機構鍾寶芬慈善基金代表郭家聲先生 (正中) 上台接受感謝狀。

Takeaways from keynote Speakers 主題演講摘要

We were honoured to have invited two of the respected education professionals from China to deliver keynote speeches. **Professor Li Zhengtao, Vice President of the Chinese Society of Education and Changjiang Distinguished Professor appointed by the Ministry of Education**, shared insights from a macro perspective on how digital and AI technologies are transforming primary and secondary education. He emphasized that future education is not only about delivering knowledge, but also about nurturing the next generation's vision and ways of thinking.

李政濤教授，現任中國教育學會副會長及教育部長江學者特聘教授，分享了有關人工智能時代教育轉型與發展的真知灼見。

Chief Principal Dr Benjamin CHAN, MH opened with a simple question in his opening address: are schools truly ready for AI? Schools are no longer mere vessels of knowledge, but crucibles for cultivating character, capabilities, and values. Teachers remain irreplaceable as they provide care, guidance and moral grounding that no algorithm can offer. School leaders' job is to support teachers and to empower them and continually strengthen both their AI literacy and pedagogical expertise.

總校長陳偉佳博士，MH致開幕辭。

Followed by the sharing from the **officiating guest Professor Wong Kam Fai (CUHK)** he quoted ancient sayings to remind students that they must learn to say "no" to AI by cultivating critical thinking and moral judgment during the AI era, to avoid being controlled by technology.

香港中文大學工程學院副院長（外務）黃錦輝教授，MH擔任主禮嘉賓。

Professor WU Gang, Vice Dean of the Institute of Advanced Studies in Education at East China Normal University, presented a vision of a future where humans and machines coexist. He argued that education should go beyond knowledge transmission toward the co-creation of wisdom, enabling students to generate new knowledge through collaboration with AI rather than merely consuming it.

吳剛教授（華東師範大學教育高等研究院副院長）分享了他對人工智能教育的前瞻性看法。

李兆璋教授（香港文學及社會科學院（健康及人類發展學部）副院長）在研討會上，探討了人工智能對教育價值與全人發展的啟示。

張澤松教授（香港城市大學協理學務副校長（數碼學習））分享了適用於人工智能時代的團隊導向學習模式。

江紹祥教授（香港教育大學數學與資訊科技學系講座教授、人工智能及數碼能力教育中心總監）呼籲教育工作者聚焦「釋放人類潛能」，並培育學生成為「有熱誠的思考者」。

Panel Discussion 專家論壇焦點

The panel discussion, 'Redefining Educational Leadership in the AI Era,' explored how AI is transforming education and how leaders should respond to this shift. In a panel, **Professor Ray CHEUNG (CityU)** said teachers should become learning facilitators. **Professor KONG Siu Cheung (EdUHK)** called for "unlocking human potential" and creating "passionate thinkers". **Professor Sandy LI (HKBU)** reminded us that AI cannot replace curiosity, inquiry or emotional education.

Parallel Sessions 分組環節

The keynote speeches and professional forums offered plenty of food for thought, but the EdTech Showcases and parallel sessions — led by Alibaba Cloud, Google, Microsoft, iFlytek, SenseTime, 工信學堂, AiTLE, HKACE, and innovative education professionals — were equally compelling, blending cutting-edge demonstrations with real-world classroom applications.

The Symposium was not only an anniversary event for the school, but also a new chapter in advancing the future of education. From ideas to action, from cross-sector dialogue to educational practice, let us join hands in the AI era to collectively forge a new future for education.

四位傑出校友（左起）註冊建築師黃朗軒、沙田學生健康服務中心主管醫生唐楚軒醫生、大律師樂詠欣，以及軟件工程師何子駿與論壇主持鄺子平一同上台，分享了人工智能在各自專業領域中的實際應用，以及他們的深刻反思。

ANNIVERSARY VARIETY SHOW

THE SOUND OF MUSIC

English Musical

The 20th Anniversary Variety Show was a resounding success, filling the prestigious Xiqu Centre (戲曲中心) with enthusiastic applause and proud hearts.

Hundreds of talented young performers from both the Primary and Secondary Divisions came together to offer audiences a dazzling feast of stunning visuals and vibrant music. They showcased their talents through musical instruments performances, Jazz Dance, Chinese Dance, Chinese Drum and choral singing, and of course – the English Musical! We were also honoured to feature Mr. Anders HUI, our distinguished Artist-in-Residence.

This year's English Musical, *The Sound of Music*, is a heartfelt remake of the school's previous production. With its blend of classical and contemporary elements from both Eastern and Western traditions, the programme reflects the diversity, vibrancy and spirit of our school. The leading actress from that earlier production then returned to the stage, now joined by her younger brother and sisters – all current students of our school. Their presence together on stage symbolises how the school has long provided a platform for young talents to shine. For some, like alumna Charlie YIP who lent her voice to this production, what began as a school performance grew into a lifelong passion and, eventually, a professional career. It is a powerful reminder that the opportunities we offer our students today can help unleash potential that blossoms into the artists, educators, and creators of tomorrow.

We extend our deepest gratitude to every young performer, musician, dancer from String Ensemble, Junior and Senior Choirs, A-Singers, Chamber Boys' Choir, Treble Choir, Piano Soloist, Orchestra, Jazz Dance Team and Chinese Dance Team, and helper, instructor, guest, parent, teacher and staff member for their unwavering support. Your presence honoured not only the fruits of our students' hard work, but also the flourishing of aesthetic growth and shared creativity across our school community.

10A YAU Kai Kit Moody

Every moment was enjoyable, from joking around with friends to discussing scenes with directors to finally performing at the show. Although it's sad that I will never be able to do this ever again, I'm glad I got to be a part of it. As an actor, I've improved from the past; as a human, I've grown through the chaos; as a whole, everything was worth it in the end. And finally, "Stay questionabolic, stay humanic, stay unbasic."

10C LEUNG Yan Yuet

This year's musical was bigger than any I've ever done. It was at the prestigious Xiqu Centre. It is the school's 20th anniversary, and it was also my last year, which certainly made me feel stressed at times. I also had to balance rehearsals with my hectic academic schedule. Even so, I believe that the challenges I overcame only made this experience even more precious. I had an amazing time with the cast and created many lasting memories with them.

紀念中國人民抗日戰爭暨世界反法西斯戰爭勝利80周年

「從文物看日佔香港」展覽

本校與香港收藏家協會及新界校長會合辦的「紀念中國人民抗日戰爭暨世界反法西斯戰爭勝利80週年——從文物看日佔香港」展覽，已於2025年12月5日圓滿落幕。展覽由11月4日至12月5日在中學舞蹈室舉行，展出珍貴歷史照片及文物，生動呈現香港日佔時期及全球反法西斯戰爭的苦難與抵抗。

2025年11月4日開幕典禮邀得政制及內地事務局副局長胡健民先生，MH, JP及香港收藏家協會會長唐卓敏醫生等嘉賓主禮。中學部46個組別、小學部32個班級分批參觀，另有近20個校外團體及家長到訪。

學生透過實物深入了解戰爭殘酷，反思和平珍貴與國家主權，紛紛表達傳承抗戰精神、珍惜和平及努力建設強國的決心。展覽獲各界高度讚揚，感謝唐卓敏醫生慷慨捐獻文物及各方支持，成功促進歷史教育與愛國情懷。

學生擔任導賞員講解展覽。

原東江縱隊司令員曾生之子曾凱平先生分享。

11A 鄧舒丹

我很榮幸擔任此次導賞員，講述內地同香港在抗日戰爭時期的貢獻和犧牲。這次任務頗有挑戰性，我需要提前記熟講解重點，在不同觀眾面前介紹，並積極解答他們的疑惑。縱使我只負責部分內容，卻也從中累積講解歷史的心得和趣味。令我驚訝的是，現場也有小學生前來參觀。身為修讀歷史的學生，眼見他們專心投入珍貴的歷史回憶，內心滿是欣喜。我也了解到贏得抗日戰爭的慘重代價，戰爭帶來的是無盡的傷亡和難以撫平的傷痛。我們不應重蹈覆轍，而是珍惜來之不易的和平。

11C 王麗翔

能擔任抗日戰爭文物展導賞員，為來訪嘉賓講解文物來歷與背後故事，我感到十分榮幸。那一件件泛黃的舊物珍貴史料，無聲訴說著烽火歲月里的家國情懷。在講解過程中，我更深刻讀懂歷史，懂得如今和平來之不易。身為青年學子，我們當銘記歷史、勿忘國恥、傳承愛國精神，以青春之力肩負時代使命。

全民國家安全教育日

NSpeed 國安快遞 @A-School

香港律政司副司長張國均博士(後排中)與師生合影。

今年4月，A-School緊扣「全民國家安全教育日」的主題，策劃了一系列寓教於樂的國安教育活動。

香港律政司副司長張國均博士，SBS，JP於4月2日蒞臨我校，與師生共同參與「NSpeed國安快遞」宣傳車的互動體驗。百餘名師生透過沉浸式互動遊戲與拼圖挑戰，在模擬實境中深化了對國安職責的理解。張副司長亦觀賞了學生自製影片《隱影戰線@A-School》，並對我校以創意形式推廣國安教育予以肯定。

4月15日的全民國家安全教育日，中小學部以「海、陸、空」為主軸，透過操作遙控船隻模擬維護海洋權益，並由專業機師指導試飛無人機，探索太空安全；中學部則設置「稻香裡的守護者」、「守法大挑戰」等攤位，並舉辦「智破迷途」定向越野比賽，讓同學在體能與智力的考驗中學習應對國家安全風險。

10C 翁子朗

很高興能代表領袖生接待律政司副司長。透過攤位遊戲，我深入了解了國安資訊及「十五五規劃」，相信師生們也能在遊玩中與時並進，學習更多國家安全知識。這次活動令我印象深刻。

11C 丘凱琳

透過遊戲和展覽，我獲得了有關國安的最新知識。我向嘉賓介紹攤位時，起初雖然緊張，但對方的親切關懷讓我感到放鬆。最後的宣傳車遊戲與合照，更使這段經歷格外難忘。

中學女子羽毛球精英賽 全勝姿態奪冠

Our SS Girls Badminton Team brought the **first Champion** in the "DECATHLON All Hong Kong Schools Inter-School Jing Ying Badminton (Team) Tournament 2025-2026". They won against different strong rivals such as Fukien Secondary School and Good Hope School in the Quarter and Semi-final with the score of 3:0 and 3:2 respectively and brought us to our first Final in history. Our students showed their ambition and **clinched the championship with a stunning 3:0 victory** against the two-year champion Diocesan Girls' School.

From 2021 through 2024, our team consistently fought their way to the top, but always finished as 2nd runner-up or 3rd runner-up. We were always right there on the edge of greatness. This year, the girls broke the cycle. They took years of "near misses" and turned them into fuel. This championship isn't just a reflection of this year's win; it is the culmination of years of patience, heartbreak, resilience, and an unwavering refusal to give up.

(體路)

9E CHEN Anni

It was my first time representing A-School in the Jing Ying Tournament. I wanted nothing more than to win it all and take home the championship with my teammates! I want to give a huge thank you to my team—this victory is the fruit of our collective hard work and synergy. Thank you to my coach, my school, and my family for their endless support. Lastly, I want to give myself a little pat on the back for stepping up and being the best version of myself!

10E PANG Oi Ki Vanessa

Winning the championship title in this grand tournament is a profound validation and encouragement for my student-athlete career. Undertaking a non-stop routine of intensive, tiring, and high-intensity training can sometimes make me hesitate, feel lazy, or want to give up. My coaches' words naturally echo in my mind: 'Keep it up, Kei Kei! Stay persistent!' These words have always boosted my confidence, anchoring me through rigorous training and shaping me into an athlete who refuses to quit and always drives forward.

小學校際羽毛球比賽

男子組冠軍

Our Boys' Team has officially reclaimed the **Group Championship** after more than a decade, sealing the victory with a **decisive 3:0 sweep**. Every single point was a battle, but our players unleashed incredible determination, ambition, and resilience to bring the glory back home!

Adding to the historic day, 5B ZHENG Xingrong captured the Boys' Singles Champion title. After a gritty, hard-fought 2:1 win in the semi-finals, he dominated the final with a clean 2:0 victory.

This monumental achievement marks the first time in school history that we have captured both the Boys' Group Championship and an Individual Event Champion title in the exact same competition.

5B ZHENG Xingrong

I'm thrilled to win both team and singles championships in the Shatin District Inter-school Competition. I'd like to thank my teammates and teachers who fought alongside me. I will train harder, improve myself, and win more honors for our school.

6A TSUI Tze Ngat

Winning the championship with my teammates was not easy. Hearing them cheer for me during the competition was an unforgettable experience! I am so grateful for my teammates' support and our coach's guidance, and I want to thank everyone whose support and participation made this possible! Last but not least, I'd like to thank the school for giving me such an amazing opportunity to bring honour to our school.

小學男籃衛冕成功

連續兩屆冠軍

Our boys' basketball team achieved a remarkable milestone, securing an incredible **two-year championship** reign in the 2025-26 Shatin Inter-Primary School Basketball Competition. Their exceptional skill and seamless teamwork propelled them through the tournament, allowing them to advance to the grand finals and successfully defend their title!

Furthermore, **six of our outstanding players** had the distinct honour of representing the Shatin district in the prestigious GENKI SUSHI All HK Inter-Area Primary Schools Basketball Competition. Competing against the finest elite players from across Hong Kong in this grand-scale tournament, our boys delivered a stellar performance to secure the 1st Runner-up trophy.

6A LAI Ho Hei

People might think we won the game because we have many good players, but no one knows how hard we trained before the game. As part of the team, I am very happy that we have won two championships in two years and made new history for our school. I have also been honored to receive the MVP award for two consecutive years. I am thankful to all coaches, teachers and parents for supporting and believing in us. I hope we can win the third championship next year.

6D CHAN Pak Hei

I had the privilege of representing my school in the inter-school basketball league from Grade 3. That year, we reached the Round of 16. Through persistent hard work, we advanced to the Final Four in Grade 4, finishing fourth. In Grade 5, we captured the championship, bringing the title back to our school for the first time in ten years. This year, as a Grade 6 senior leader, I fought alongside my younger teammates to achieve back-to-back championships and successfully defend our title. To all my teammates, keep working hard, embrace challenges, and strive for the three-peat!

呂梓晴勇奪速度輪滑全國冠軍

八年級呂梓晴在速度輪滑領域的表現極為穩定且突出，足跡遍佈本地、國內及海外；在最近舉行的全國少年錦標賽中，梓晴憑藉優異的表現獲得全國冠軍，成功取得「國家二級運動員」證書。這份認證是國內官方對專業運動員技術水平的高度認可，代表梓晴已經跨越了業餘愛好者的門檻，進入專業競技的階梯。憑藉今年在全國少年賽事中取得的輝煌戰績，預計將於明年正式獲得香港體育學院的精英運動員資助；這不僅是對她過往努力的肯定，更將有助她在未來代表 A-School 及香港，向更高更遠的國際賽事邁進。

8E 呂梓晴

奪得全國速度輪滑冠軍，讓我感到滿心喜悅與自豪。這份榮譽來之不易，無數個晚上訓練、反覆的磨練與艱苦比賽，加強了我的技術和意志。賽場上我戰勝疲勞與緊張，專心向前全力衝刺。獎盃是堅持最好的回報，感謝教練與隊友的陪伴鼓勵。這不是終點，而是新的起點，我會繼續追尋輪滑夢想，不斷進步，勇往直前。

中學女排攬兩冠寫校史新頁

The journey of our **SS Girls Volleyball** in the Inter-School Volleyball Competition (Shatin & Sai Kung Secondary Schools Area, Division I) reached its peak this year.

After steadily advancing through the competition with 5 straight wins, the team eventually reached the finals, defeated Ti-I College by 2:0 and claimed the **Championship for the first time in our school history** in the **Division 1 Girls Volleyball Competition**.

Returning to Division 1 Volleyball Competition in 2024/2025, our secondary girls have been improving and aiming for the first championship. We were close last year by winning the 2nd Runner Up in A & B Grade and 1st Runner Up in the C Grade Competition.

We practised hard with great quality and team cohesion throughout the year, and despite one of our starting players in B Grade getting injured, the remaining members stepped with confidence and dedication.

9B CHAN Sum Yau

After countless attempts and training sessions, we are delighted to have won the B Grade championship. Over the past two years, we were approaching but just one step behind our goal. That only made us more determined to go all in for the champion and leave no regrets this year. We are overjoyed to have won, and it is definitely a remarkable achievement for us. We look forward to achieving more success together as a team in the future.

10D CHAMBRIN Sonia Marie

We are thrilled to have won the B grade champion. We have trained for endless hours, always pushing each other to our limits. Winning the championship has made our undefeated season even more special. Even when a key player was injured during a crucial match, we stayed united and fought through it together.

女子沙排稱后

The SS Girls' Volleyball Grade A team has been crowned **champion** in the New Territories Inter-Secondary Schools Beach Volleyball Competition, securing the school's **first-ever** title in the category.

Winning all seven matches with a dominant 2:0 scoreline, the team delivered a flawless performance throughout the competition. SS Girls Volleyball Team Captains 11B AU Eva and 11B LAU Sum Pui, who had led the team to the final last year only to fall short, returned this season with even greater determination. They set their sights on the championship and put in extra training sessions – including sand court practices beyond regular school hours – to sharpen their teamwork and skills.

11B 區兆晴

今年的沙排學界冠軍得來不易，我們一齊經歷過高高低低，有狀態不佳的時候，亦都有許多情緒起伏，但我們對勝利的渴望，無時無刻都提醒自己要堅持！最後，我們真的成功了！

11B LAU Sum Pui

Taking breaks after two consecutive losses in the past two years, we finally reached the highest point of the podium. To overcome the unstable weather in beach volleyball wasn't easy, I am proud of our determination and consistency to achieve this remarkable result. Thanks all of you for believing in us and pushing us to be our best in this tough season. We believe this is just the beginning of our journey, more victories will follow in the coming season.

Melodic Victories at 78th Hong Kong Schools Music Festival & Joint School Music Competition

For the first time, our combined forces of A-Singers, Chamber Boys' Choir, and Treble Choir from Secondary Division secured **first place in the Oratorio – Secondary School Choir N96 class**. Performing "Worthy is the Lamb that was Slain" from Handel's Messiah HWV56. This milestone win is a testament to the dedication of our singers and the expert guidance of Collaborative Pianist Mr. Jason, vocal coach Mr. Irwin, and conductor Dr. Hon.

The PS Junior Choir achieved outstanding success too, securing **first place in the Foreign Language (Intermediate) category**. The choristers delivered captivating renditions of "Autumn Vesper" and "The Bat." In "Autumn Vesper," they created a serene and atmospheric sound, while "The Bat" was performed with lively energy, clear articulation, and delightful playfulness.

The SS choirs received an invitation to perform at the Prize-Winners Concert – Sacred Music held at St John's Cathedral.

4D CHUNG Tsz Ching

The journey was not easy. We faced many challenges during practice, such as learning difficult rhythms and singing in tune together. There were tiring rehearsals after school, but everyone stayed focused and worked very hard.

4E LEUNG Kaitlyn

I was so delighted to be chosen as part of the Junior Choir. After months of hard practice, we performed "The Bat" and "Autumn Vesper" and were thrilled to be crowned Champion!

10A WONG Tsz Shun (Vice-captain of A-Singers)

Performing Messiah again at St John's Cathedral felt like a full-circle moment. It reminded us why we sing – not for awards, but for the joy of sharing music in a sacred space.

10C PANG Hei Nin (Captain of Chamber Boys' Choir)

Winning first place was surreal. Standing on stage at the prize-winners' concert, I felt so proud of how far we've come as a choir family. Truly unforgettable.

Joint School Music Competition 2026

This year's Joint School Music Competition (聯校音樂大賽) proved to be the school's most successful ever, as the ensemble members earned an extraordinary **9 Gold Awards** across a range of categories. Congratulations to all 200+ student musicians and their dedicated conductors for this historic achievement!

Every rehearsal, every late night of practising—it all paid off. More than the awards, I'll treasure the friendship and focus we shared on stage. This season showed me what we can achieve when we truly play as one.

Distinguished Artist-in-Residence

HUI Chi Yu, Anders Conductor of PS & SS Orchestras

Anders Hui is a versatile and accomplished musician, celebrated for his artistry in concert performance, chamber music, and music education. Currently serving as Second Associate Concertmaster of the Hong Kong Philharmonic Orchestra, Hui has been an integral part of the orchestra's success since 2010, contributing to its international acclaim.

An avid chamber musician, he toured with the Hong Kong Philharmonic Quartet to Shanghai and Beijing, culminating in a critically acclaimed performance at the Beijing Music Festival alongside Andreas Ottensamer and the Shanghai Quartet. His chamber and solo engagements have also included appearances at the Beijing Music Festival, Premiere Performance Hong Kong, and Hong Kong Generation Next Arts.

Hui is a dedicated educator. Currently, he serves as an adjunct faculty member at Hong Kong Baptist University and Hong Kong University of Science and Technology. Hui frequently conducts masterclasses and workshops at institutions such as the Hong Kong Academy for Performing Arts, Beijing Central Conservatory of Music, and Shanghai Orchestra Academy. As a juror, he has judged numerous competitions in Hong Kong and internationally, including the 2025 Hong Kong Generation Next Arts Competition as well as 2022 Singapore Raffles International Music Festival.

A NIGHT OF MUSICAL GLORY WITH THE HONG KONG PHILHARMONIC

In a landmark evening at the **Hong Kong Cultural Centre Concert Hall**, selected members of our school's **A-Singers**, **A-Parent Singers**, and **SS Orchestra** had the privilege of performing side by side with the **Hong Kong Philharmonic Orchestra and Chorus** in the finale of the **HK Phil Fundraising Concert 2026 – "Your Stage Awaits"**. Under the baton of Maestro Lio Kuokman, JP, our combined forces presented Handel's majestic "Worthy is the Lamb" from Messiah. The experience was made even more special by our **Distinguished Artist-in-Residence, Mr. Anders HUI**, who served as the concertmaster of the HK Phil that evening.

Additionally, we proudly celebrate **G8 KWONG Chung Chi Michelle**, who delivered a breathtaking solo, "Waiting on a Wish" from Snow White in the same concert, captivating the entire hall.

8B KWONG Chung Chi Michelle

Singing 'Waiting on a Wish' with the HK Phil on stage beside me was a moment I will never forget. I was nervous, but the moment the orchestra played, I felt pure joy. Sharing that stage with my schoolmates, parents, and Mr. Anders Hui as concertmaster was a dream come true. Thank you to everyone who made this possible.

10C WONG King Hei (Vice-captain of A-Singers)

Performing Handel's 'Worthy is the Lamb' alongside the HK Phil was an unforgettable honour. Standing on the stage of the Hong Kong Cultural Centre, surrounded by professional musicians, I felt both nervous and exhilarated. The moment the orchestra began under Maestro Lio's baton, everything clicked. It wasn't just a performance — it was a shared musical journey.

第 62 屆學校舞蹈節

小學中國舞隊蟬聯四屆總冠軍

小學部中國舞隊多年來秉持認真、投入、傳承的精神，今年再度於學校舞蹈節中，勇奪中國舞全場總冠軍，連續四年獲此殊榮，累積五次奪冠。今年參賽作品包括漢族舞蹈《五彩拉麵》、《張燈結綵賀新春》、《小山妞》、《鼓趣》，以及蒙古族舞蹈《草原小騎士》。

亮麗成績背後，凝結了隊員的汗水、老師的指導與家長的信任。比起沉甸甸的獎盃，更珍貴的是孩子們對舞蹈純粹的熱愛與師生團結一心的見證。未來，我們將保持初心，在排練室裡互相扶持、共同成長、謙卑學習，繼續在舞台上傳遞中華文化的魅力，譜寫屬於我校舞蹈隊的新篇章。

組別	獎項	舞蹈名稱
小學低年級組中國舞（三人舞）	優等獎	《小山妞》
小學高年級組中國舞（三人舞）	甲級獎	《鼓趣》
小學高年級組中國舞（三人舞）	優等獎	《草原小騎士》
小學高年級組中國舞（群舞）	優等獎、編舞獎	《五彩拉麵》
小學低年級組中國舞（群舞）	優等獎	《張燈結綵賀新春》

2A 何梓澐

能夠參與中國舞，我感到很開心。在訓練過程中，我們學到了團結和合作精神。導師常常提醒我們，要有足夠的笑容和美麗的姿態，終於我們拿到了冠軍的獎項！

6A 鄭諾晞

我最深刻的不是上台領獎的一刻，而是練習時的汗水。感謝同學的陪伴與老師的教導，讓我們都能在舞台上展現最好的自己。

SS Dance Stars Capture 13 Awards at the 62nd Schools Dance Festival

At the 62nd Schools Dance Festival, the school's dance teams and individual performers achieved notable success across multiple genres. Both the **Jazz and Contemporary Dance Teams** were presented with the **Honours Award**, while several students received individual recognition in Jazz, Street, Contemporary, and Chinese Dance categories. In total, the dancers earned **8 Honours Awards, 3 Choreography Awards, and 2 Highly Commended Awards**. These results highlight the high standard of performance and choreography demonstrated by the students and reflect the continued strength of the school's dance programme in fostering artistic discipline and excellence.

Building on this festival success, the Jazz Dance Team has also earned a **Silver Award** at the **Dance World Cup Qualifying Round 2026** in the Junior Large Group Commercial Category.

10A TANG Ho Yui

Winning the Honours Award for "Angels vs. Devils" is an unforgettable achievement. As the Vice Captain of Jazz Dance Team, leading the team through countless Sundays and late-night rehearsals to perform this battle of light and darkness required immense dedication from all our members. Every synchronized movement paid off on stage and we enjoyed every moment. I am incredibly proud of our growth and I can't wait to see where our journey continues.

On April 1, 2026, the school hosted the **5th annual Music Marathon** as part of our 20th Anniversary celebrations. The theme **"Legacy in Harmony"** was expressed through **performances by all 30 classes**, each presenting two songs under the guidance of their class teachers. The programme featured a wide range of music, from **hymns and festive pieces to dances and multilingual popular songs**, reflecting the creativity and diversity of our school community.

Each of the three sessions included a tribute performance dedicated to our students, affirming their central role in our legacy. This collaboration among teachers, colleagues, and parents was met with enthusiastic applause and highlighted the unity that has shaped our journey.

The closing of every session featured a collective rendition of "The Path of Grace", performed by entire grades together with teachers and parents. The harmonies filled the hall and embodied the theme of building legacy through unity and song.

We extend sincere appreciation to the music team, creative consultants, class teachers, students, and parents whose commitment made this milestone event possible. Music Marathon 2026 was not only a concert, but a celebration of community, harmony, and two decades of shared growth.

5A CHENG Pak Yin

I was very glad to play the piano part for our class in the Music Marathon! We performed "海闊天空", and it took me about two months to practise, plus another month to correct all the notes and beats. During the performance, I accidentally played one beat wrong and felt panicked, but I quickly caught up and continued. I am truly thankful to Ms. Lai for arranging the music and practising with us patiently. This experience was unforgettable.

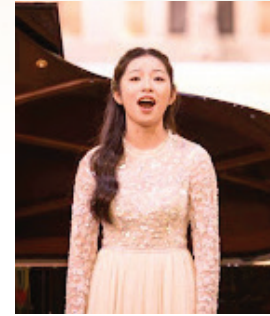

6E LEUNG Ching Yu

This year, performing "Last Christmas" and "重口味" was truly unforgettable. I realized that teamwork and leadership were very important during practices, and listening to each other's ideas made rehearsals magical. These preparations built our confidence on stage. I think we had an amazing performance, and we are thankful to the teachers who helped us along the way. I am proud our class delivered the show with energy and unity. My last Music Marathon was truly the most memorable highlight of my school year.

WINTER CONCERT

LEGACY IN HARMONY

Alumni soprano Bertha Hung (Class of 2019) and pianist Cheryl Cheung (Class of 2019) reunited to join the Winter Concert.

Accordionist Prof. Lee Chee Wah Special guest Ms. Nancy Loo

On a memorable evening on January 13, 2026 at **St John's Cathedral**, our school presented the Winter Concert 2025-26, titled **Legacy in Harmony**, celebrating two decades of musical excellence. The concert brought together **over 200 performers from the Primary and Secondary Divisions**, alongside **distinguished alumni and guest artists**, in a programme that traced the beautiful thread of legacy passed from one generation to the next.

Drawing inspiration from Scripture—where song and testimony are faithfully handed down from generation to generation—the concert opened with *O God, Our School's Eternal Light*, a specially commissioned hymn for our 20th anniversary. The evening unfolded as a tapestry of vocal and instrumental brilliance, featuring the Secondary Division Orchestra performing Mozart, the Secondary Division String Orchestra with Vivaldi, handbell ensembles, harp duos, Chinese instrumentalists, and A-Singers.

Primary Division students shone brightly throughout the programme. The Handbell Team performed with a serene and precise hymn, *Abide with Me*, their clear chimes echoing gracefully. This was followed by an elegant Harp Duet presenting *He Shall Feed His Flock* from *Handel's Messiah*, offering moments of tranquil beauty.

The Teacher-Student String Ensemble delivered a vibrant rendition of *Karl Jenkins' Palladio: I. Allegretto*, showcasing excellent coordination and musicality. The Senior Choir then performed John Rutter's heartfelt anthem *The Lord Bless You and Keep You*, their warm, blended voices moving the audience deeply.

The concert culminated in a powerful grand finale, as the Senior Choir joined forces with the Secondary School Choir and Orchestra, and A-Parent Singers to perform the majestic *Worthy is the Lamb*. The combined forces filled the cathedral with triumphant sound, creating an unforgettable climax of unity and celebration.

3D CHAN Nok Yan Abbie

Performing as a harpist at the beautiful St. John's Cathedral was a very special experience for me. At first, I felt nervous, but my teachers and friends encouraged me and helped me relax. I felt deeply honoured to have been invited by the music teachers to participate in the Winter Concert, as this opportunity is not given to everyone. I hope I can play in the concert again next year.

6A CHUNG Ngai Zachary

Our Teacher-Student ensemble had a wonderful time preparing together, carefully tuning every note and perfecting our pitches until everything sounded just right. Beyond the music, we enjoyed bonding with one another and sharing thankful thoughts about our daily practices.

9D GUO Lai Shing (Concertmaster of Secondary Division Orchestra)

Leading the orchestra as concertmaster was both a tremendous honour and a profound responsibility. The overture's brilliant energy and rhythmic precision demanded complete unity from every section. Standing at the front, I could feel every bow stroke and breath synchronising behind me. This concert reminded me that a concertmaster does not just lead—they listen, connect, and become the bridge between the conductor and the ensemble.

10B HO Nathan (Baritone Solo)

Singing Biegga Luohte was unlike anything I've ever experienced. The cluster chords and drones create this vast, Arctic soundscape—you can't just sing your part, you have to feel the wind and the breath. Standing among the A-Singers, knowing alumni who once stood in our places and now study at top schools, I understood what 'Legacy in Harmony' truly means. We are part of a story much bigger than ourselves.

Play Day

October 28, 2025

From the peaks to the valleys, our students across all six grades recently embraced teamwork, creativity, and exploration during an unforgettable series of Play Days!

Our youngest adventurers in Grade 1 unlocked their creativity at LEGOLAND Discovery Centre, engineering custom cars and exploring a miniature Hong Kong. Meanwhile, Grade 2 took to the skies at The Peak, mastering strategy at Monopoly Dreams before enjoying the skyline and outdoor play.

Moving into the outdoors, Grade 3 stepped into Noah's Ark Theme Park, diving into immersive digital eco-exhibits and life education workshops. Grade 4 connected deeply with nature at Butterfly Valley Organic Farm, building empathy while feeding animals and crafting eco-art.

G1 @ LEGOLAND Discovery Centre

G2 @ The Peak

G3 @ Noah's Ark Theme Park

Further up the ladder, Grade 5 explored cooperation through emerging sports, creating art from ocean waste and conquering LEGO engineering challenges. Finally, Grade 6 pushed their physical and mental limits at the Chinese YMCA, fearlessly tackling high-level ropes courses and climbing walls.

Across every single grade, these enriching experiences brought endless laughter while instilling vital life lessons in communication, resilience, and unity. Collaboration truly transformed individual effort into collective achievement!

G5 @ Scout Association of Hong Kong

1D WAN Tsz Kiu

When we arrived at Legoland, we moved in groups. I played with LEGO and played shooting games with my group members. Finally, we went to the souvenir shop and chose the gifts for ourselves. I bought a set of lovely LEGO for myself. In the end, everyone gathered and took the bus back to school. I felt very happy and excited. I am looking forward to the next Play Day!

2E NG Ka Ho Carlos

I enjoyed the Play Day very much. We got to visit the Monopoly Dream Hong Kong, and played with different games inside. Fixing tools was my favourite game! We learnt to take care of ourselves and others as well.

3C 羅貴家

今日玩得超開心！方舟花園的獅子、老虎好像真的一樣，威風凜凜。最難忘是夢想星球的電影，帶我飛上太空，穿越星河，彷彿自己也成了一名小太空人！

4C YIP Ho Ling Marcus

Firstly, we went to the enormous playground near the entrance, where there was a human-sized hamster wheel and numerous slides. We played them all and went to the Forest Explorer Area. There was a rope bridge, a huge trampoline area, and even a three-story tall playground. My classmates were all screaming in fear when they were on the long rope bridge because below was a huge body of water. We ended up on a swan boat feeding some koi fish.

5C 吳蔚晴

今年的目的地並不似往年的主題公園，而是到大埔洞梓童軍中心去體驗新興活動和團隊合作活動。在導師的帶領下，我們分班進行了多項富挑戰性的活動，包括集體拋豆袋、砌積木、繪畫海玻璃、地壺球等。每一項活動都需要發揮創意或大家互相配合，才能順利完成任務。這次與眾不同的遊戲日，讓我們遠離城市的喧囂，同學們在歡笑與汗水中建立了更深厚的友誼。

6A 沈希哲

我覺得今天的旅程非常難忘，因為我們不但學會了團隊合作，還學會了勇敢。為什麼我會說學會了勇敢呢？因為我認為在我們玩那些「極限運動」時，我們都一起克服恐懼，學會了如何勇敢。這年是我們大家最後一年在一起了，我們一定珍惜了一起嘅時光。等長大了，一定會回憶起這些時光。

Life-wide Learning

A-School always believes that learning shouldn't be limited to the physical classrooms and should be extended outside the school campus. A-School teachers are always eager to provide diversified opportunities to make learning boundless, interactive and fun. Life-wide Learning Day is one of the annual tradition events of A-School. On the Life-wide Learning Day, students enjoy exploring various learning themes by participating in different workshops, courses and outings:

G7 Exploring Hong Kong Wetland Ecosystem @ Nai Chung and the Lions Nature Education Centre

7B LI Qian Ru

I enjoyed the activities because we could save the environment while learning about different animals and their living habitats. I learned the importance of teamwork through playing the hunting game with my friends. I also loved the tours, they were interactive and not something learnt in class before.

G8 Adventure Day Camp for Personal Growth @ Bula Land in Sha Tau Kok

8C CHOW Lok Ching Aven

The most inspiring moment was watching my classmates step outside of their comfort zones. Trying archery for the very first time, we were all nervous, but the supportive cheers from classmates gave us the courage to pull the string. By cheering on each other and working as one team, we built trust and saw new sides of each other. This day truly showed that we were a team. We returned to school not only with fun memories but with friendships that feel stronger.

G9 Learning about the Environmental Protection and Cultural Heritage @ Lung Kwu Tan & Tung Chung

9C TUNG Sze Hei

Visiting the mangroves in Tung Chung was not only an opportunity to immerse ourselves in nature, but it also became a memorable moment for our class to bond and connect on a deeper level. The class activities turned the day into an enriching educational experience, enhancing not only our environmental awareness but also our teamwork and communication skills. Engaging in conversations encourages openness and collaboration, which are essential for building trust and unity within the class.

Day

G10 Senior Associate Day Camp @ School Campus

10D NARAYANAN Vishwa

The most memorable part was the Adventure Rope Challenge. Initially, my fear of heights made me anxious, but encouraged by those around me and driven by my own resolve, I decided to face the challenge. Climbing, balancing and swinging through the course pushed me far beyond my comfort zone. The moment I rappelled down from the third floor, I felt an incredible surge of pride—I had conquered my fear.

The day was a beautiful blend of learning, laughter and personal growth. It reminded me once again how powerful it can be to embrace new experiences and believe in myself.

G11 CareerLive Experience & Art Visit @ Career Sparkle & Tai Kwun

11B CHUNG Hei Fan

The "CareerLive" gave me a new respect for all workers. It taught me that behind every job—whether it looks glamorous or ordinary—there's a person who has worked hard to learn the skills to do it well.

G11 Simulation Experience of Climate Change @ Humanitarian Education Centre

11B YIP Sin Ning

Through the simulation activity, I understood the desperate measures people had to escape their current living conditions, even if it meant death. To witness all your hard work being ruined by a single flood is devastating, and the storytelling made me empathize deeply with victims. I definitely became more aware of the actions I can take to reduce the severity of climate change, and what consequences my actions will have.

G12 Residential Day Camp @ Po Leung Kuk Jockey Club Tai Tong Holiday Camp

12A LIU Annie

For the Life-wide Learning Day this year, it is definitely one of the most treasured memories for all G12 students! We had lots of opportunities to build class spirit and enjoy BBQ time with our class teachers! Although it was a rainy day, we still enjoyed the game and created a unique BBQ experience. Most of us are struggling in our academic studies, which puts a lot of stress on us. This is also an excellent time for us to release our stress and take a moment to hang out and chat with our classmates and friends.

平等機會盃中學校際辯論賽勇奪總冠軍

本校中文辯論隊於**2025-2026年度平等機會盃中學校際辯論賽勇奪總冠軍**！5月24日於商場大舞台舉行的總決賽中，我隊以5:0完勝順德聯誼總會李兆基中學，在**48隊強敵中六戰全勝**，締造歷史佳績。

冠軍隊成員為9C林珈靖、9C陳品喬、9C溫菁琳及10C卓嘉謙。他們以卓越表現，為學校二十周年校慶送上最珍貴的禮物。

面對密集考試與高壓訓練，隊員堅韌不拔，力求卓越，承繼「浸附中辯，止於至善」的隊訓。賽事獲《明報》、《香港商報》及平等機會委員會廣泛報導，商業電台亦將重播總決賽。

9C 陳品喬

我們在這次比賽中進步明顯，不僅思路更清晰、邏輯和寫稿能力亦更強。雖然過程十分崎嶇，既要面對密集考試，又要面對長時間的會議和高壓，但我們沒有任何人放棄，大家對辯論的熱愛從來未減。回顧初中三年，我得到隊友、張和錢教練的包容與支持，才得以不斷成長。當下次走到極限時，我會回想一路走來的原因，然後繼續燃燒自己，成為自己想成為的人。

9C 溫菁琳

很慶幸當初聽從隊長的建議，加入「好開心、好好玩」的辯論隊。雖然訓練辛苦，我錯失了許多玩樂的時間，但這正正是辯論最好玩的地方。感謝這班形同家人的隊員、老師及教練！這次比賽是我們非常寶貴的體驗。雖然作為主辯，我的發揮空間有限，但最後能成功突破自我，喜獲最佳辯論員。

Brownie 455 NT Pack Establishment cum Enrolment Ceremony

May 4, 2026

We are delighted to announce the **official establishment of the Brownie 455 NT Pack at our school**. To mark this milestone, the school hosted a formal Establishment cum Enrolment Ceremony in the School Hall.

The event served as a dual celebration: officially inaugurating our school's Brownie Pack and recognizing the impressive achievements of our members over the past year. Dressed in their full Brownie uniforms, students stood with pride to take their Brownie Guide Promise, a significant step in their journey of character development and community service.

Guests from the **Hong Kong Girl Guides Association** officiated at the event. The ceremony was a warm, family-centered occasion, with parents joining the festivities to witness their daughters' dedication firsthand. We look forward to seeing the 455 NT Pack grow and continue to embody the spirit of the Girl Guiding movement within our school community.

2E CHEUNG Cheuk Yi Ava

There were a lot of guests and principals attending the ceremony. I felt proud and grateful when I received the badges, certificates, and gifts. I look forward to more fun activities ahead of us.

2E TANG Lok-Se Praise

I felt excited and honoured at the ceremony. We sang the Brownie Song and made our Brownie Guide Promise. Our parents also came to celebrate with us, and they were very proud! I love how fun and supportive the 455 NT Pack is.

3A WONG Kei Yuet

I would like to thank the commissioners for coming and putting the Promise Badge on my scarf. Throughout the past year, I learned the Eight Point Programme from my Guiders, and the most important one is "Brownies are friendly".

Aquatic Meets

January 7, 2026

Secondary Division 15th Aquatic Meet

After two decades of growth, this year's Aquatic Meet reached a historic milestone as we celebrated our school's 20th Anniversary. We have consistently aimed for higher standards in the pool, and this year's spirit of excellence was more evident than ever.

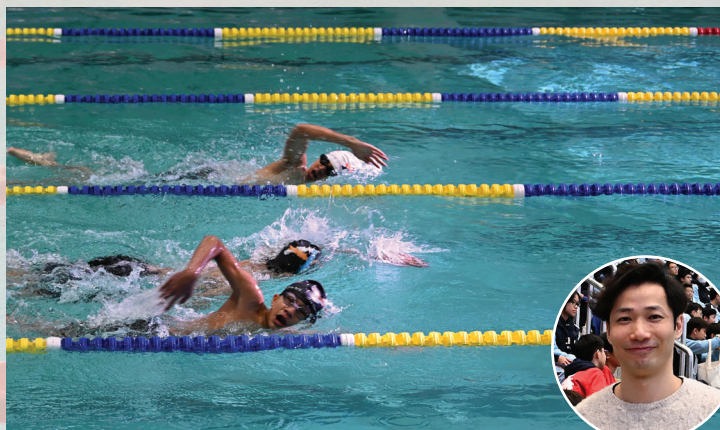

The true highlight was the inaugural A-School Mixed Relay, a special event designed to honour our legacy. By bringing together Primary and Secondary students, teachers, and alumni, we demonstrated the incredible cohesion and "We-together" spirit that defines us. Despite the challenges of elite competition, our swimmers stepped up with immense dedication. This relay wasn't just a race; it was a powerful tribute to twenty years of unity, marking a triumphant chapter in our school's sporting history.

10B LIU Cheuk Ue

Year by year, we've grown stronger as a team. From endless training to intense moments in championships, we pushed our limits together. Despite unexpected injuries and challenges, we still fought through it as one. Finally, having our own pool made training much easier and brought us closer than ever.

11A CHENG Lachlan

Through seasons of relentless dawn training and grueling practices, we have forged an unbreakable bond. We pushed past our physical limits and overcame every injury and setback by fighting as one. Having our own pool finally streamlined our efforts and brought us closer, turning every challenge into a collective victory.

Hong Kong men's volleyball player Siu Cheong Hung (蕭昌鴻) served as the officiating guest to present the awards.

Primary Division 10th Aquatic Meet

The 10th Aquatic Meet of the Primary Division took place on April 24, 2026 at Shing Mun Valley Swimming Pool, opened by our Vice Principals. Over 200 young swimmers, including talented Grade 1-2 students, competed with incredible confidence.

House Wisdom continued its winning streak as Overall Champion, receiving the trophy from Chief Principal Dr. Benjamin Chan and Hong Kong swimming star **Mr. Mak Sai Ting, Adam (麥世霆)**, who won gold in the boys' 200m breaststroke at the World Aquatics Junior Swimming Championships in Israel. House Faith won the vibrant Cheering Competition.

The student and parent-child relays drew the loudest cheers from the stands. Congratulations to all participants for showing outstanding sportsmanship and making the day a memorable success!

6A LEUNG Caden

It was my last aquatic meet in Primary Division, I am very grateful of winning 2 gold medals and the overall champion of my grade. It always be my honour joining the Aquatic Meet, to learn and compete with my fellow classmates is something more than a game, it's the spirit of A-School.

6C TSE Yuet Tung

All the cheering from classmates, teachers, and even principals made me feel more confident and proud of swimming my best and representing the school. A great thank you to all the teachers and principals for organizing this event every year, giving an opportunity for students to try their best. Let us all strive for excellence and fight for our dreams.

跨學社大富翁馬拉松

King David Monopoly Marathon Competition

「跨學社大富翁馬拉松」是二十周年校慶的重點活動之一。比賽採用特別設計的「校慶20周年特別版大富翁」，棋盤上的每項細節都承載著我們熟悉的校園建築、重要地點與獨特文化。活動吸引過百名中小學部學生踴躍參與，現場笑聲不斷，氣氛熾熱。

不只是遊戲，更是一場生命教育。現今科技發展急速，電子遊戲隨處可找，透過這款經典桌遊，連結起中小學部的同學們——比賽縱然有贏有輸，但我們更渴望喚起的，是人與人之間最真摯的友誼，並期望透過遊戲引領學生思考：什麼才是真正的豐盛人生？所謂的「財富」又是什麼？

「信富於道、善富於行、情富於緣、智富於心」——正是全人教育的溫度與方向。

勝負會過去，分數會遺忘，競技期間一起笑過、商量過、爭論過又和好過的瞬間，才是真正留在心裡的財富。

真正的富有，從來不在棋盤上的金錢數字，而在於同學們心中所學會的信、望、愛。

感謝郭家聲先生的鼎力支持，鼓勵同學們思考上帝為我們每個人所預備的智慧與財富。

「耶和華是我的牧者，我必不至缺乏。」（詩篇23:1）

陳鴻耀主任牧師（第一城浸信會）

《大富翁》遊戲勝出的竅門就是儲錢、買地、建屋、在短時間賺最多的錢。其實這都是現代人的寫照。惟耶穌卻提醒我們「人的生命不在乎家產豐厚」。（路12:15）

林偉明牧師（第一城浸信會）

玩大富翁時，我們會全心放在金錢之上：投地、購地、建屋等。在真實的人生中，除了金錢，是否有其它的人、事、物值得你如此的投入呢？當日，我最享受的是與老師和同學一齊玩大富翁。

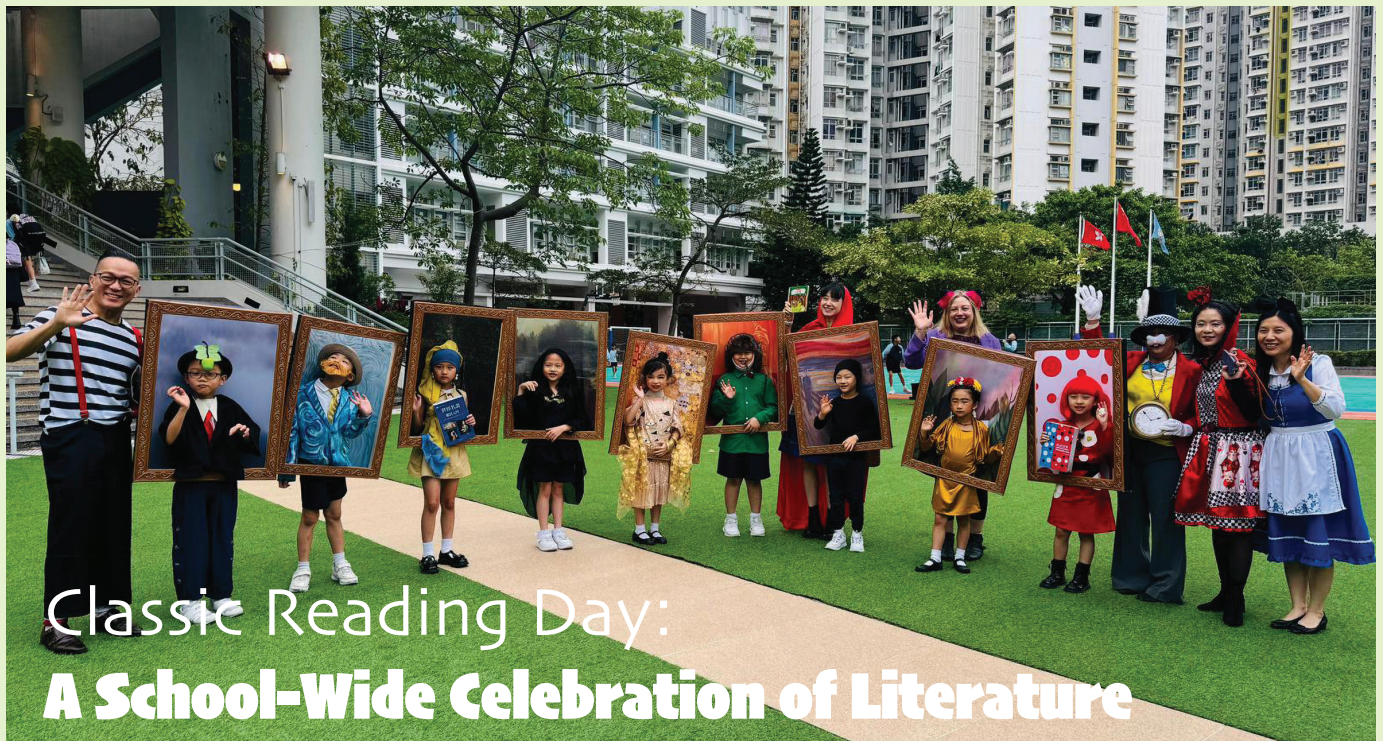

6E 黃澄恩

在參與過程中，我學會了運用策略玩遊戲。我認為真正的財富是擁有真摯的友誼和豐富的知識。我會好好珍惜並善用它。希望下次還可以參加！

8C 江暖晴

我在比賽中擔任銀行家的角色。最讓我感到滿足的是看見同學臉上燦爛的笑容，大家玩得開心。對我來說，家人和朋友就是生活中最珍貴的東西。

Following a series of creative competitions and the exciting “Battle of the Books” that began in December 2025—introducing 72 wonderful Chinese and English classics to students—our school’s annual Classic Reading Day culminated on April 30, 2026 in a truly unforgettable celebration. Students, teachers, and parents came together to explore over 30 literary masterpieces through a dynamic range of activities. From AI-generated animations and a reading card design competition to a dazzling catwalk show of classic characters, lively quizzes, author talks, drama performances, and 24 book-themed game booths, the day blended tradition with technology. It was a joyful, engaging experience that sparked curiosity, built confidence, and deepened everyone’s love for the timeless magic of great books.

1B 游康悅及其他八位學生

我們九個同學決定在Reading Day扮演畫中主角，參與Catwalk show。我們的爸媽很厲害，所有服裝、飾物和畫框，都是由他們親手製作的。

在Reading Day當日，我們要比平日早起床為Catwalk show作準備。在Catwalk show前，我們都很緊張，但聽到大家的掌聲後，就不怕了，還很享受整個活動的過程。希望明年我們九個同學能再一起參與Reading Day!

6D 柏虹羽

美好的Reading Day圓滿結束囉！我們借藉AI製作了精美的閱讀卡，穿上了書中人物的裝扮，親自走進文學世界。我還探索《小王子》的故事，寫出閱讀報告，爭取到了動畫配音名額。這場有趣的閱讀盛會，讓我沉醉於書香，也就是享受了閱讀的樂趣，也收穫了成長與快樂。

冬日校慶嘉年華「盛世慶典：感恩二十載」

2026年1月24日，冬日校慶嘉年華「盛世慶典：感恩二十載」圓滿舉行，逾3,500人齊聚校園。當日師生家長穿上歐式宮廷服、戴上舞會面具，恍如置身華麗盛典。巡遊表演、音樂午餐、遊戲攤位與親子工作坊，精彩紛呈。感謝各家長、師生鼎力支持，同賀二十周年校慶，盼攜手譜寫更多璀璨篇章！

4A WONG Ching Yeung

When I walked out in the PERCCI costume, a huge crowd was waiting and everyone cheered for my performance. I totally overcame my fear of being a mascot! We even survived a close call when the battery died, but thanks to the spare battery my dad hid inside, I saved PERCCI just in time. I'm so glad I tried something new!

10D 鍾凱澄

嘉年華會當天，師生和家長合力籌辦攤位活動，吸引大批人潮。大家分工合作，有的協助參加者完成挑戰，有的講解遊戲規則，場面熱鬧又溫馨。每位參與者都全情投入，帶來一場難忘的盛會。

活力校園跑樓梯競技大賽

本年度「活力校園跑樓梯競技大賽」已於2025年10月25日圓滿舉行，超過250位師生及家長齊聚一堂，挑戰自我極限！

比賽現場氣氛熱烈，參賽者由大樓梯出發，奮力穿梭各層樓。個人賽中選手展現驚人爆發力；社際賽凝聚團隊鬥志；親子賽與師生賽則見證了攜手並肩的深厚情誼。當健兒們揮灑汗水衝向五樓終點時，每一級階梯都成為了榮耀的見證。

是次賽事籌得款項將全數撥入「家校建設」基金。感謝所有參賽者的全情投入與家長義工的無私付出，讓這場垂直馬拉松成為展現學校精神的閃亮舞台！

3A 楊稀睿和1E 楊承睿家長

活動由兩位小朋友擔任小導遊，帶領我們走遍校園。我們不但能更了解孩子平日的校園生活，也有機會從他們的角度認識學校環境。這真是一個非常難忘的親子體驗！

3A 楊稀睿

今年我和弟弟第一次參加跑樓梯比賽，最難忘的是在小學部不小心走錯路，爸爸急忙拉著我掉頭狂奔！雖然累，但全家一起跑向目的地真的好刺激。明年我還要報名參加！

10C 黃竟瑋

人群熙攘，陽光猛烈，汗水早已濕透衣服，卻澆不熄我們的熱情。那一天，我們用汗水與歡笑，點燃了這場屬於青春的運動盛宴！

中國文化日

春風送暖，校園歡騰。二零二六年二月十二日，中國文化日以「千年神話 璀璨華夏」為主題熱鬧登場。中樂團奏響《花好月圓》，醒獅舞龍氣勢磅礴。小學中國舞隊以《張燈結彩賀新春》喜氣滿場。話劇《嫫祖養蠶》傳承中華智慧。美食、遊戲攤位歡聲不斷，師生全情投入。文化日在濃厚節日氣息中圓滿落幕。

11B 陳灝悠

今年中國文化日，我協助舉辦揮春攤位，即場為同學書寫他們想要的祝福語。親手書寫之間，我感受到傳統書法與節慶習俗結合的魅力。揮春不只是一張紅紙，更承載着人與人之間的祝福與溫度，讓我體會到中華文化那份實在而親切的美。

視覺藝術教師西安敦煌文化藝術研習

Last year, PS Visual Arts teacher CHUN Wing Yau, Venus joined the **Xi'an and Dunhuang Arts and Culture Study Tour for Visual Arts Teachers**, organized by the Education Bureau to understand the Dunhuang's artistic traditions. Ms. Venus said, "It inspired me to explore new approaches to teaching."

Back at school, Ms. Venus shared these insights with G3-4 students, guiding them to discover how ancient motifs could

be reimagined through modern mixed-media techniques. This process encouraged students to connect cultural heritage with contemporary creativity, while building confidence in their own artistic voices.

The learning journey culminated in the students' participation in "Extending the Charm of Xi'an and Dunhuang — Exhibition of Teaching Designs and Learning Achievements", organized by the Curriculum Development Institute (Arts Education Section), Education Bureau. The exhibition reflected a meaningful cycle of learning and teaching, "I gained inspiration, passed it on to my students, and they transformed it into artworks that celebrated both tradition and innovation," said Ms. Chun.

International Exhibition of Inventions Geneva

We couldn't be prouder of our Grade 5 and 6 inventors at the 51st Geneva! After months of passionate hard work, the **Graphicool Team**—5C PONG Man Ying Audrey, 5E NG Shing Hei, 6B CHAI Yi Lam, 6B LAI Pui Lok, and 6C PANG Hailey—brought home a **Silver Medal**. Driven by a heartfelt desire to bring comfort to those feeling unwell, they designed an innovative cooling headband for fever relief.

We are equally proud of the **OceanSpark Life Jacket Team**—5D CHAK Paak Shun, 5E HO Yuet Yee Corrine, 6A CHEUNG Chun Yin, 6D NG Sik Wo Kenson, and 6E MAK Ching Ling Averie—who poured their hearts into developing a sustainable, battery-free illumination system. These young changemakers earned a **Bronze Medal, Best International Invention & Innovation Award from Thailand**, and a **Special Merit Award from France**.

But the true victory was watching these ten young minds shine on the global stage, confidently sharing their brilliant ideas with international experts. Beyond the prestigious medals, it was their incredible heart that moved us most. Seeing them lift each other up through unexpected hurdles, navigate challenges with maturity, and forge lifelong bonds was the ultimate reward. They traveled to Geneva as students, but they returned as inspiring global scientists.

6B LAI Pui Lok

We got to see many advanced technologies that enhanced my knowledge, and also different sights that broadened my perspective. After this whole trip, I learned to be more independent and to never give up. Most importantly, I learned to understand how innovations change industries. Before going to Geneva, I always thought innovation was something far beyond, something only scientists could do, but after this trip, I learned that if you take the first step, everything is possible. It was truly a memorable and unforgettable journey that we will all remember for a lifetime.

6E MAK Ching Ling Averie

I learned much more about other innovative products and met many talented scientists. My understanding of my own product improved significantly, and so did my presentation skills. Of course, besides staying at Palexpo, we also travelled around Annecy, Paris, and Geneva. Along the way, we learned about different cultures and tried many new things. The extra bonding time really helped strengthen our friendship, making it much easier for us to communicate and present together. This thrilling experience was truly worth all the hard work and dedication. It also planted a seed for my future in science and invention.

A-School Young Innovators Shine at the UK Bett Show!

In the world's leading education technology event, two STEAM projects by PS were presented. The first project, **EcoDrive: Smart Waste Collection Routing**, uses algorithms to optimize waste collection routes and enhance energy efficiency. Their second project, **Chinese Dance Pose Recognition with AI**, blends Chinese cultural tradition with technology, analysing dance movements with an AI camera and providing instant feedback to support improvement.

SS students brought their mobile application designed to promote healthier lifestyles through interactive gaming-based exercise to the BETT. By combining elements of gaming with physical activity, the app motivates users to stay active in an engaging and enjoyable way. Its integration of real-time health monitoring, including pulse rate and blood pressure tracking during exercise not only enhances user safety but also allows individuals to better understand their physical condition while participating in activities.

4A NG Yui Sum

I had the chance to meet experts, teachers, and students from around the world, and it was inspiring to exchange ideas with them. Presenting our projects to international visitors helped me grow more confidence and improved my communication and teamwork skills.

4B SUEN Wai Yan

Presenting our projects to international visitors strengthened my communication, teamwork, and problem-solving skills, while showing me how project-based learning connects classroom ideas to real-world impact.

11A CHOI Chi Yan

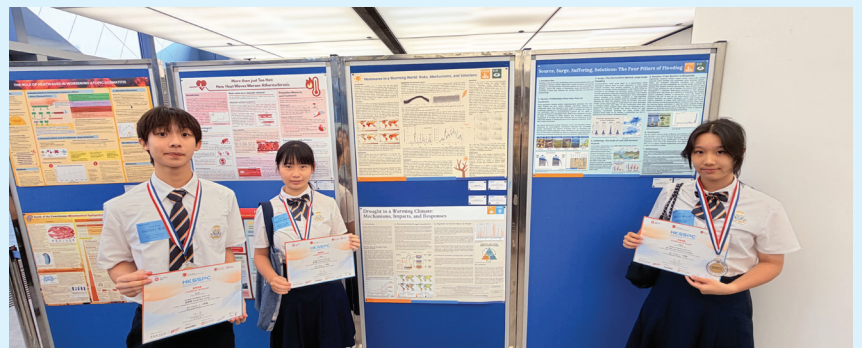

I had the opportunity to present my own exercise app, which combines interactive gaming with fitness to encourage people to stay active. Sharing my work with an international audience boosted my confidence and inspired me to continue developing innovative solutions that can make a positive impact on people's health.

實踐創意 科研求證 香港學生科學比賽獲獎

We are delighted to announce that our SS students have been awarded the **Second Prize in the Scientific Wallchart Division (科學海報組)** at the esteemed **Hong Kong Student Science Project Competition (HKSSPC) (香港學生科學比賽)**.

Achieving this placement among **more than 300 competitive entries** is a remarkable accomplishment that reflects the high calibre of our students. The team has demonstrated exceptional dedication and innovative thinking in transforming complex scientific concepts into accessible, visually engaging educational materials.

Jointly organised by The Hong Kong Federation of Youth Groups, the Education Bureau, and the Hong Kong Science Museum, the HKSSPC serves as a prominent platform to foster students' interest in science and technology while nurturing their creativity and scientific inquiry skills.

11A CHEUNG Cin Win

Making an academic poster seemed so distant and difficult before I attended this competition, but with our teacher's support, we finally made this poster in an academic and precise manner. We learned a lot in this competition—not only how to cite sources properly and the format of an academic poster, but also, by observing other competitors' work, we gained many insights. From the possible threats brought by extreme weather to the creative and feasible solutions, we might usually overlook this kind of content as boring, but this time it was presented in eye-catching posters, which made everything much more engaging. This helped me understand the importance of academic posters, and how powerful they can be in presenting ideas.

11A FUNG Sze Long

While I am proud of this award, it has helped me see how I can improve. I realized that my poster had some limitations. I used graphs from papers instead of making my own, which I think would have made my work much clearer. Next time, I will learn to create my own graphs. I'm very grateful to be nominated for this competition and for gaining this experience.

HKBUEAS and Caterham School UK joined hands to Advance Educational Excellence

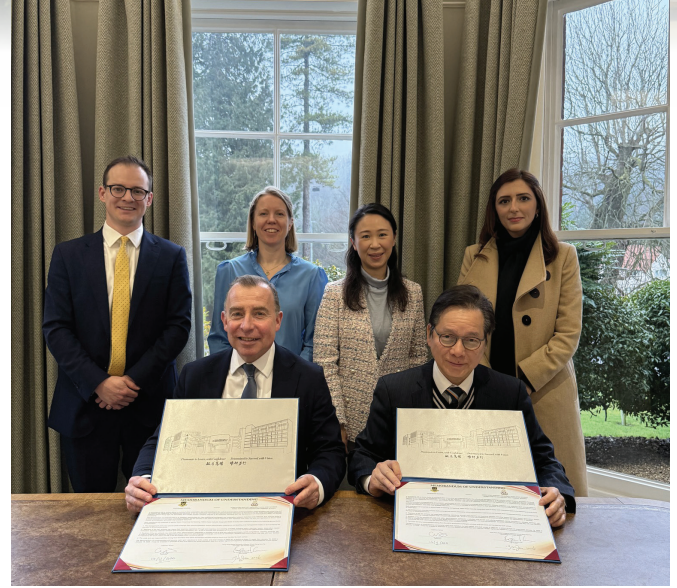

From Caterham website

HKBUEAS is pleased to announce the signing of a formal Memorandum of Understanding (MOU) with Caterham School in the United Kingdom on January 19, 2026. The agreement was officially signed by **Mr. Ceri Jones, Headmaster of Caterham School**, and Dr. Benjamin Chan, Chief Principal of HKBUEAS, during an official visit to **Caterham's campus in Surrey, England**.

The MOU establishes a framework for sustained collaboration in curriculum development, educational technology, artificial intelligence in education, and university and career guidance. It also supports the development of student exchange programmes and professional learning opportunities for teachers, thereby enriching both school communities.

The HKBUEAS delegation, guided by distinguished student prefects, toured Caterham's state-of-the-art facilities and gained a comprehensive understanding of the school's academic environment and student life. The visit highlighted Caterham's strong culture of academic excellence, reflected in its outstanding A-Level performance and university placement outcomes.

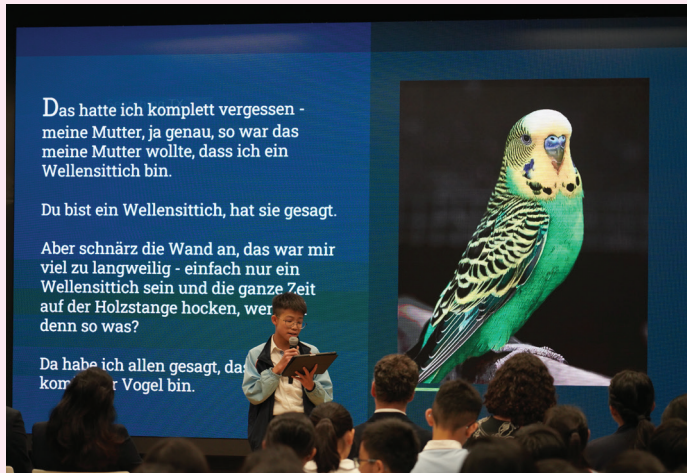

Both institutions share a firm commitment to advancing innovation in teaching and learning. Caterham is recognized as an *Apple Distinguished School*, while HKBUEAS is designated a Google Reference School. This shared emphasis on educational technology and future-ready learning provides a solid foundation for the exchange of expertise and best practices.

A *Wunderbar* Celebration of German Language & Culture! 德國駐港領事及香港歌德學院訪校

德國駐港澳副總領事歐伯仁(Oliver Bräuner) (左五)、德國駐香港總領事館副領事 Stefanie Walter (右五)

On April 17, 2026, our school was buzzing with excitement as we welcomed distinguished guests from the **German Consulate General and the Goethe-Institut Hongkong**. It was an honour to host Mr. Oliver Bräuner (Deputy Consul General), Mrs. Stefanie Walter (Vice Consul), along with representatives from the Goethe-Institut.

Our Grade 6 students kicked off the performances with a lively and hilarious rendition of "Mecki Dudel und seine Band," bringing the house down! Meanwhile, our secondary students captivated the audience with a fascinating presentation on the life of the legendary Albert Einstein.

We were also treated to wonderful storytelling: a sixth grader shared the classic tale "Die Bremer Stadtmusikanten," while a G8 student read a moving excerpt from Sarah Jäger's novel "Und die Welt sie fliegt hoch." Beyond the performances, our guests took part in curriculum discussions and enjoyed a full tour of our school facilities. We had a very fruitful conversation about the future of Modern Language learning at HKBUEAS, exploring student opportunities and the valuable support offered by the Consulate and Goethe-Institut.

清華大學附屬中學 締結姊妹校

2026年3月13日，我校正式與清華大學附屬中學締結為姊妹學校。締結當天，清華附中**方妍校長**分享辦學理念，闡述「自強不息、厚德載物」的精神內涵，展現其貫通培養、全人發展的教育格局。兩校結盟為深化交流奠定穩固基礎，促進資源共享、優勢互補，進一步促進香港與內地之間的教育交流。未來雙方將積極推動師生教研合作與學術互動，讓同學在更廣闊的平台上拓展視野、彼此啟發，培育國家民族在各領域的接班人。

王錦輝王國強基金會執行主席、香港齊心基金會董事局主席、本校校外顧問委員會聯席主席王紹基先生，JP(後排中)出席簽約儀式並致辭。

校長應邀出席 上海交通大學130周年校慶活動

2026年4月7日

總校長陳偉佳博士獲邀出席中國科學院學部第十一屆科學教育論壇。論壇同時也是上海交通大學130周年校慶活動之一。

陳校長在會上發表題為《重塑科學課堂——未來科學教師能力轉型與培養機制（以香港教育視角）》的演講。他指出，在學界積極推動STEM教育、價值觀教育及數字教育策略的背景下，生成式AI正迅速改變學生的學習模式，也重新定義教師的專業角色。

與會者陣容鼎盛，包括中國科學院的院士、上海交通大學、浙江大學及海外大學的教育學院院長及教授、來自中國各地的著名學校校長，以及大學教育學院的師生們等。

此行另一重點是與上海交通大學教育學院簽訂了「專業交流計劃協議」，促進本校老師與上海交通大學教育學院的專業互動及學習，為兩地教育合作寫下新的一頁。

寧波惠貞書院雙邊交流

2026年2月9日至13日，我校榮幸迎來姊妹校——寧波惠貞書院師生代表團，開展為期五天的沉浸式交流活動，深度體驗我校多元教學氛圍，在併肩學習與課後暢談中迅速拉近彼此距離。及後3月和4月，我校中小學部分別前往惠貞書院作科技、體育及音樂交流。

惠貞同學與我校學生結成「學習夥伴」，在課堂併肩學習。

2月12日適逢我校中國文化日，惠貞師生共同參與「千年神話 璀璨華夏」主題活動。

兩校同學攜手展開香港市區探索之旅：從尖沙咀鐘樓到海濱長廊，搭乘天星小輪飽覽維港風光，登上中環摩天輪俯瞰都市景致；午後漫步大館古蹟藝術區，感受歷史與現代的交融魅力。

3月10至14日，我校小學部順利完成寧波—杭州文化科技交流研學之旅。學生參加AI程式設計課製作小程序；羽毛球友誼賽讓大家在切磋中建立友誼。同學們又參觀了不同展館，並參與風鈴工作坊與植樹體驗，學習合作與環保。

8A 黃子健

我跟到訪惠貞書院同學一起上課，讓他們認識香港和我校的教育制度、文化和特點等等。正所謂「讀萬卷書，不如行萬里路」，我們還一起前往香港的旅遊景點，擴闊他們對「東方之珠」的視野。我也嘗試教他們說廣東話，讓他們「入鄉隨俗」，感受香港「兩文三語」的特色。

8D 李珮兒

在這次交流活動裏，我了解到了內地學校的上課模式及課程與香港的不同之處，他們的教學進度比香港的快很多，因學習的知識難度也大大增加。在和他們香港一日遊的那天我和我的夥伴一起合影、介紹這裡的文化和歷史，他們都特別感興趣。這次的活動不僅讓我的夥伴了解了香港，還讓我留下了許多珍貴的回憶和點點滴滴，令我十分難忘。

在復活節假期期間，我校合唱團與寧波惠貞書院進行了溫馨的姊妹校交流。我校學生與友校夥伴一起採排、分享故事與地道小食，兩校合唱團共同舉辦了一場名為「萬物生長·惠輝音揚」的音樂交流盛宴。當天，雙方除了各自帶來精彩的演出曲目之外，全體成員更一起合唱了由楊鴻年編曲的《茉莉花》，在熟悉的旋律中加強彼此之間的友誼。春天萬物生長，正如我們兩校之間的姊妹情誼，藉由音樂不斷茁壯與共鳴。

上海國際合唱節榮獲四獎

寧波之旅的另一亮點是合唱團參加了「HKYPA上海國際合唱節」，並取得驕人成績，共帶回四個極具分量的獎項。

在合唱節中，A-Singers 及 Festival Choir 分別榮獲最高榮譽「合唱團特等金獎」。此外，我校更獲頒「最佳團體獎」，而合唱團指揮音樂及表演藝術總監韓進豐博士亦獲頒「最佳指揮獎」。

8A SO Chi Kei (Captain of Treble Choir)

Winning the Grand Gold Award felt amazing, proving our hard work paid off. However, the best part was the cultural exchange—trying local snacks and rehearsing with Huizhen Academy. I learned that music builds bridges faster than words ever could.

11B CHOI Ching Yee Tiana (Vice-captain of A-Singers)

Performing on an international stage was thrilling, but singing *Jasmine Flower* with our new friends in Ningbo was the true highlight. We didn't just share a song; we shared a language beyond words. It was an unforgettable experience of unity and pride.

廈門國貿楓禾交流回顧

2025年10月22日至23日，我校榮幸迎來姊妹學校——廈門國貿楓禾的馬驕校長，以及其帶領的二十多位師生代表到訪，開展為期兩天的跨地域校園交流活動。

本次交流以「學習夥伴」結對為核心，我校學生與內地夥伴一對一結對，陪同他們隨班參與各科課堂，沉浸式體驗香港校園生活。

活動特別設置「與副校長對話」環節，我校陳佩柔副校長、莊鎮宇協理副校長與廈門國貿楓禾的學生們面對面交流，分享教育經驗與成長感悟，解答同學們關於跨文化學習的困惑。

10D 許懿

很高興能在十月成為自廈門而來的同學的學習夥伴，帶着她體驗了兩天香港的課堂。我們聊八卦、聊學習，兩天眨眼就過去了。我發現原來兩地校園生活這麼不同，這次交流真的既快樂又獲益良多！

10D 林珀熙

在這次交流活動中，我和buddy交流了彼此擅長的知識，一同進步，亦分享了兩地不同的文化趣聞，很快就成為了好朋友。雖然只有短短的兩天時間，但已讓我受益匪淺，衷心希望未來能有更多類似的活動。

A Warm A-Family Reunion in the United Kingdom

In January 2026, we reaffirmed our school's commitment to lifelong connections by hosting a meaningful reunion with alumni residing in the UK. Leading the delegation were Dr. Benjamin Chan, Chief Principal; Dr. Arfeen Bibi, Associate Vice Principal; and Ms. Jackie Chong, Senior Director. The gathering served as a powerful reminder that distance is no obstacle to the enduring bonds of the A-Family.

The UK reunion brought together alumni pursuing bachelor's and master's degrees at some of the world's most prestigious institutions, including the **University of Oxford**, the **University of Cambridge**, **Imperial College London**, the **London School of Economics and Political Science (LSE)**, and **University College London (UCL)**. The delegation also met graduates who have already embarked on professional careers in fields such as **psychology**, **physiotherapy**, **investment banking**, and **engineering**.

The reunion was filled with heartfelt conversations, fond memories, and stories that shaped their A-School days. Seeing how each alumnus has embraced their unique journey — thriving academically and professionally — was both inspiring and humbling.

Celebrating Excellence at Oxford and Beyond

During the visit, the delegation had the privilege of spending time at the historic University of Oxford, where they met several outstanding alumni:

- **LEE Tak Yin Quinton (Class of 2020)** – Bachelor of Experimental Psychology, Wadham College; now working at the University of Oxford and actively involved in choirs and choral projects across the city.
- **SO Wing Kiu Katie (Class of 2022)** – Law student, Wadham College; recipient of the Hong Kong Scholarship for Excellence Scheme (HKSES); soon to qualify as a solicitor.
- **CHEUNG Kwan Chiu Alfred (Class of 2023)** – MPhys Physics, Mansfield College; a stellar seven 5** achiever in the HKDSE who continues to excel at Oxford, earning a distinction last academic year.
- **CHU Hok Yin (Class of 2023)** – Bachelor of Mathematics (MMath), Merton College; HKSES recipient; completed a research internship in Osaka, Japan; aspires to pursue a PhD.

Reconnect with Us

HKBUAS wishes all alumni the very best in 2026 and beyond. Former students who wish to reconnect with the school community, share their latest achievements, or participate in future alumni events are warmly invited to get in touch.

Deterministic τ -based clustering and mould optimization for reusable formwork in curved glulam construction

Authors: Kristof Crolla , Yilun Jiang , Pei-Hsien Hsu , June-Hao Hou , Nichol Long Hin Wong , Yu-Tung Cheng

Wong Long Hin Nichol is pleased to announce the publication of his journal paper “**Deterministic τ -based clustering and mould optimization for reusable formwork in curved glulam construction**” in JCDE — **Journal of Construction and Design Engineering, Oxford University Press**. Co-authored with the research team from BSL, HKU, the paper describes a practical computational method that helps simplify the making of curved glue-laminated timber parts by grouping similar shapes within a chosen tolerance and optimizing shared molds. In plain terms: it shows how to cut the number of jigs and molds needed to make curved wooden beams while keeping the finished pieces very close to the intended shape.

This research grew directly from the recently completed KATENARA(弦關) pavilion in Taichung City where Nichol was the project lead. The pavilion constructed by two glulam rings and ten near-catenary beams form a doubly-curved roof. Using parametric tools and evolutionary algorithms, the team prefabricated all curved elements with a single optimized jig, reducing fabrication complexity and costs (jigs originally accounted for 19% of timber works). The pavilion was assembled on site in three hours, proving the approach works in low-tech settings.

Nichol hopes this work will help promote sustainable architectural design by lowering material waste, cutting production costs, and making non-standard timber structures more accessible—especially in places with limited resources. The paper and the KATENARA project together show how smart computation and simple fabrication strategies can make beautiful, efficient, and affordable timber architecture possible.

Pauline Yeung (middle), Audrey Chow (right), and Hau In Tang (left) are former Champions and Best Debaters of the Sing Tao Inter-school Debating Competition

In about one month's time on Saturday, 11 April 2026, Pauline Yeung, Audrey Chow, and Hau In Tang – three former Champions and Best Debaters of the Sing Tao Inter-school Debating Competition for secondary students – will be launching the Korea Europe & You (KEY) Inaugural Debate at the Hopewell Hotel, a new landmark in the bustling Wan Chai district in the heart of Hong Kong.

Bright young minds from the University of Hong Kong (HKU) and the Chinese University of Hong Kong (CUHK) will come together for a debate on the topic: "This House Believes that Digital Strategies are the Most Important Enabler of Hong Kong's Cultural Innovation."

Organized by French non-profit KEY and presented by consulting firm KnitKnot Global (KKG), the debate invites students to develop arguments on Hong Kong's cultural landscape by drawing on examples and case studies from South Korea and Europe, connecting global insights with local cultural, economic and policy contexts.

TANG Hau In (Class of 2025)

Current Student at Faculty of Law, Chinese University of Hong Kong

The KEY Inaugural Debate 2026 began as an idea over afternoon tea, but seeing it develop into a real event was a genuinely eye-opening experience. There were many details to consider along the way, from communication and logistics to ensuring everything ran smoothly on the day itself. In that sense, the experience reminded me of my time at HKBUAS debating and assisting with large-scale events as a cultural ambassador. There are clear similarities between all three experiences, particularly in the importance of teamwork, preparation, and adaptability.

I also found the theme of Hong Kong's cultural innovation especially meaningful. It is important not only in relation to post-COVID culture-centric rejuvenation schemes eg. sports, concerts, but also because it speaks to the broader cultural landscape of our city and the media environment that shapes daily life. It was interesting to hear how the speakers connected overseas case studies back to Hong Kong, because fresh perspectives can often lead to new ideas when they are thoughtfully applied to the local context. The panel discussion added another valuable dimension to the event, as it brought in different viewpoints and helped deepen the overall conversation.

On a more personal level, it meant a great deal to be involved in this project because debate has played such an important role in my own journey. Debate has shaped me into who I am, my career path etc. during secondary school, so being able to help organise an event connected to that community felt very meaningful! It was also rewarding to see the spirit of debate continue in a new setting, with new people and new ideas. Additionally, exposure and discussion with many professionals from different fields were especially valuable, as this reminded me that dialogue builds a foundation for considering different possibilities based on everyone's own expertise.

I believe debate and dialogue are the stem of all ideas and are what fundamentally pushes society forward. Being able to replicate this in The KEY Inaugural Debate 2026 at the university and professional levels was a memorable and rewarding experience as a Year 1 student. It reminded me that debate is not only about speaking well, but also about bringing people together and creating space for thoughtful discussion that pushes the world to become a slightly better place, I hope!

黎展康

中學部中文老師

大家好！我是黎展康老師，很高興能在這裏與大家見面。很多同學都好奇為甚麼我的英文名字叫Tiger，這是因為我在虎年出生，父親因此為我取了這個英文名——Tiger，希望我能像老虎一樣充滿朝氣與活力。

作為中文科老師，我對博大精深的中國文化懷有深厚的熱愛。在課堂之外，我最大的興趣愛好就是欣賞崑曲，感受婉轉雅緻的水磨調。我也喜歡觀看電影，從光影故事中體味百味人生。

來到A-School，我最深刻的感受就是這裏的學生充滿活力，十分陽光，你們的笑容常常感染著我。我期望同學能從中文科的學習中發掘樂趣，找到滿足感與成就感，正如古語所云：「學而時習之，不亦說乎？」

學習貴在主動，我也經常鼓勵同學勇於發問，因為經過發問與思考得來的知識，才是真正屬於自己的。此外，我也十分推崇孔子「不憤不啟，不悱不發」的教育智慧。教師若在學生「求知若渴」的時候予以點撥啟發的話，往往能達到「豁然開朗」的學習效果。期待與大家共同進步！

溫玥涵

中學部中文老師

大家好！我是溫玥涵老師。輾轉重慶、北京、新加坡至香港各地求學任教，一次次走出熟悉的人情風景，一次次嘗試不同的課題技藝，讓我體驗到了多元的教育環境，也逐漸意識到鮮活的生命經歷永遠是最精彩的課堂。

作為大家的中文老師，我時常思索，在科技飛速革新、新知不斷湧現的當下，我們該如何表達人文學科的魅力，安放我們躁動的身心？

來到A-School，與大家朝夕相伴的日子裏，我們一起欣賞了各式各樣的藝術表演；一起體驗了不同地域的美食；在課上激情作詩，在課外瀟灑揮毫……學校平台給予了大家無限的可能，所以我始終堅信生動的中文學習不會僅僅局限在默書本上的平平仄仄。

這些具體而直接的生命體驗，都能讓我們從內而外地生發出對自己、對他人、對社會、對自然的好奇、尊重和愛，會讓我們在入云亦云、技術浪潮滾滾而來之時，依舊能構建自己人生的錨點，保持持續學習的激情。

未來讓我們共同努力，一起書寫更多溫暖有趣的故事吧。

世界越是眾聲喧嘩，我們越要生氣淋漓。

羅俊璋

小學部人文素質科主任

我是羅老師，在小學部任教人文和科學科。在人文裏，我們談心；在科學裏，我們談星。作為學習科目，少不了溫習和評估；但能否享受，關鍵在於你願不願意在當中尋找一點「浪漫」。

人文科的學生，需要一顆懂得感受的心，把平凡的文字和經驗變得有意義、有感覺。在課堂上，我們走進生活處境和歷史場景，貼近當事人的掙扎與選擇：「原來有人和我一樣」、「在這個情況之下，我會怎麼選」、「我是怎樣的人，我在乎甚麼」。當我們對生活多一點覺察，就能與世界多一份連結。

科學科的學生，是一顆帶着問題的星：在黑暗裡保持好奇，在漫長裡守住光。透過觀察、實驗和推理，探索優雅的科學規律，你心裏的好奇熊熊燃燒，成為了照亮世界的光。夜空對你來說，不只是晚上的背景，而是等着被解讀的謎，是承載億萬年歷史的物理世界。你會發現，「我們每一個人都是星塵」。

A-School的學生都富有創意，又有豐富的學習資源。未來讓我們一起踏出舒適圈，走進社群，感受其他人的故事，同時也慢慢解讀和建構自己的「本質」。在成長的旅程中，更要勇於想像，保持好奇與敬畏，長期投入觀察與思考，尋找世界的「本質」。祝願你們：和光同塵，與心同行，與世界並肩。

KWAN Wai Ki, Vicky

Mathematics & STEAM Teacher, Primary Division

Hello everyone! I'm Vicky, and this is my 5th year teaching STEAM and Math at A-School. As our school celebrates its 20th anniversary, I welcomed a wonderful milestone by becoming a mom this year! It feels special to grow alongside our community during such a memorable time. Over my five years here, my favorite part of teaching has been witnessing our students' positive energy—they are never afraid to think outside the grid.

In class, I always tell my students that the journey matters so much more than just crossing the finish line with a perfect score. In the worlds of STEAM and Math, an error is just useful information. It's like a helpful little signpost saying, 'Great try! Let's team up and tackle this from a different angle!'

Outside school, my world has experienced a beautiful shift. I used to be a competitive rugby player who loved going out with friends. Now, I stay at home, enjoying this precious baby stage. Becoming a parent has given me a profound reflection on the bond between a mother and her baby. Caring for another human being while feeling physically weak after giving birth completely redefined my understanding of resilience.

If I could share a piece of advice for life, it's about embracing the future without losing our core. I am currently learning AI myself. In fact, as a real-time example of learning in action, this entire newsletter draft was co-created with AI! While this shows that AI is a powerful and helpful teammate, what will always be more important are our human skills—how we cooperate, how we communicate, and how we stand strong with our values. Let's keep exploring, supporting each other, and building a bright future together!

郭鍾寶芬慈善基金冠名贊助 人工智能及數據科學中心

人工智能及數據科學中心

阿里雲未來實驗室

工信學堂AI教育科創中心

在郭鍾寶芬慈善基金的慷慨冠名贊助下，我校全力打造的「人工智能及數據科學中心」已正式投入運作。該中心由兩大核心部分組成，致力為同學提供最前沿的創科學習環境：

阿里雲未來實驗室

本教室與全球頂尖科技企業「阿里雲（Alibaba Cloud）」攜手合作。作為亞太區及中國最大的公共雲服務商，阿里雲在雲端運算與人工智能領域享譽國際。教室內特別配備了高效能的雲端虛擬主機，為同學注入強大的基礎算力，全面支援AI與大模型的深入研究，顯著提升我校在人工智能教學與專題研究上的獨特優勢。

工信學堂AI教育科創中心

本中心引入了由國家工業和信息化部教育與考試中心、中國電子教育學會及北京信通傳媒共同發起的「青少年信息技術培養工程」。中心以培育學生的AI應用、科學技術及人機協作能力為核心，引導同學參與多元化的考評與創科活動。

其中重點項目涵蓋：青少年人工智能技術、編程、無屏編程、科技素養及無人機技術等專業水平測試。這不僅能為同學開展具認受性的能力證明，更為他們的數位教育與未來發展奠定高瞻遠矚的堅實基礎。
