

Exchange Programme with Peoples Christian Academy, Canada

Our students went to Canada to experience the school life there in mid-November. Here is one of the sharing:

G10A Lin Ka Ching

Peoples Christian Academy (PCA) is a through-trained school from Nursery to High School, a school filled with full of love and care by Christian values.

Having been experiencing the school life of PCA in Canada, their relaxed manner in study is really different from the style of Hong Kong. As a Hong Kong student, our learning motivations usually come from the competence and pressure from countless tests, quizzes and assignments. However, being able to stay beside and interact with the students in Canada, I was able to observe a forgotten motivation of Hong Kong students which is the interest to learn. Indeed, students in Canada have more diverse knowledge about the world.

I hope that Hong Kong schools also cultivate students' interest in learning and secure students' passion and interest to learn to achieve a more balanced life.
