

Wiryehanbit High School, Korea (May 2019)

Seven students and a teacher visited Wirye Hanbit High School from May 1 to May 9, 2019. They attended a Korean class which was specially arranged by the school. They also had the chance to make their own tote bag by writing Korean and gave them to their buddies as a gift. During the exchange programme, they visited many different places. They had a better understanding of traditional Korean culture by wearing Hanbok in Gyeongbokgung Palace. They made their own traditional Korean doll as well. They also visited the SM Town Museum to learn about the K-pop culture.

This was a great honour for me to join this programme. All the teachers and students from Korea were very friendly and caring. The Korean culture is totally different from Hong Kong. The Koreans value the status in the hierarchy so they especially respect others who are older than them. This exchange programme gave me an unforgettable experience. I am grateful and blessed. Thanks for everything that the school and my buddy did for me. I really enjoyed the programme!
