

<<Language Exchange with the German Swiss International School - 2021>>

Learning German and making new friends? Even a pandemic cannot stop our students and the students from the German Swiss International School(GSIS). A big thank you to Simone Schock and Lenia Fragoso from GSIS. It was exciting to see the students taking their first steps in communicating in a new language. Introducing themselves and asking about the interests of others is something they can achieve even in the initial stages of language learning. We are curious and eager to see how far the students can go on this beautiful journey of language learning.
